

Snorkel Cruises Maldives

feels like paradise!

7 Nights aboard MV Misraab

The best way to explore the Maldives is by cruising through the atolls. The pristine beauty of the islands passes by. Crystal-clear waters shimmering in all shades of blue and green frame the small, paradisiacal islands with white sandy beaches. The Maldives not only offer breathtaking views but also the opportunity to immerse yourself in the colorful underwater life – snorkeling on coral reefs populated by exotic fish. Each new island visited promises unique experiences, from romantic beach walks to cultural discoveries. A cruise through the Maldives is the perfect way to experience paradise on earth.

This exciting cruise takes you on a journey through three atolls. Start and End of the tour is the International Airport in Male. This tour was especially designed for snorkelers and beach lovers.

Our traditional ship MV Misraab is equipped with four full A/C double cabins with ensuite bathroom. It is ideal for those who enjoy traveling in small groups on a more individual basis. The tour is accompanied by an English-speaking guide and operates on select dates throughout the year.
